# **Allegheny County Parks Comprehensive Master Plan: Progress Report 2006**

## **Looking Back:**

The “Allegheny County Parks Comprehensive Master Plan”, prepared by Wallace Roberts & Todd, LLC, was completed in January 2002. The purpose of this master plan was to provide a guide or blueprint for the long-range management and development of the park system to achieve a positive future. The open planning process included extensive public input; a thorough inventory of physical facilities, programs, operations and management procedures; and policy direction in developing the plan from a committee comprised of county residents.

Based upon the above sources of input, the Comprehensive Master Plan established a policy framework designed to guide overall county parks decision-making. Recommendations for actions to be carried out within the framework were provided as a whole (system-wide recommendations) and for each of the nine parks within the system. The plan also outlined a proposed implementation program, including priorities for non-capital actions such as organizational and management changes; capital improvement projects with order-of-magnitude cost estimates; and recommendations for long-term financing.

The goals of the Comprehensive Master Plan were to:

1. Establish an overall vision statement and policy framework for the long-range development and management of the Allegheny County park system.
2. Identify recreational and other park-related needs of the park system’s users.
3. Develop a comprehensive inventory of natural and cultural resources, facilities, and programs in the county parks.
4. Assess current operations and management procedures for the county parks.
5. Based upon the above, formulate policies and an action plan to guide decision-making with regard to maintaining and enhancing the overall park system and the nine parks that comprise it.

The Comprehensive Master Plan made 42 system-wide recommendations that covered new initiatives, programs, and policies as well as operations, management, maintenance, and staffing; park facilities, programs, and events; natural, cultural, and historic resources; pedestrian, vehicular, and other forms of circulation; and other important issues. A total of 297 park-specific recommendations were made for the nine county parks; these proposed actions applied the system-wide recommendations for facilities, programs, infrastructure, and resources at the park level, addressing the unique conditions and circumstances of each individual park. Included were “Demonstration Projects” recommended for implementation in the short term, to underscore the commitment of Allegheny County government to improving the park system.

## **Progress Report Methodology:**

A matrix was prepared listing each recommendation for the nine county parks individually and the system-wide recommendations. The matrix included a column for:

- Section Number – from the plan
- Recommendation – the highlighted wording
- Assigned Priority – from the study (1, 2, 3, none)
- Status/Comments – completed by Parks Department staff
- Status Grouping – determined after all status comments were completed by staff

Additionally, “Priority Demonstration Projects” were identified with an asterisk and italicized print.

The ten forms were provided to the Parks Department with the Status/Comments and Status Grouping columns blank. Department staff supplied status comments for each of the 339 recommendations made in the master plan. Upon review of those comments, it was found they fell into seven general groupings as follows:

1. Project complete
2. Project underway, or being addressed in some fashion
3. Ongoing effort (addressed through maintenance or programming)
4. In discussion through planning stages
5. No specific action identified by staff
6. No progress to date
7. Project deemed infeasible or unnecessary by staff

The status comments made by Allegheny Parks Department staff for each of the recommendations and the related status grouping number are listed below beginning on page X.

## **County Achievements:**

Over the past four years, Allegheny County management, Public Works Department, and the Parks Department have made significant progress in addressing the 339 recommendations made in this study. By totaling the first four status groupings, we find that 222 or 65.5% of all recommendations are either completed, underway, being addressed through ongoing efforts, or in discussion/planning stages.

Many of the key suggestions in the System-Wide Recommendations have been completed, such as:

- Implement a new organizational structure for the county park system
- Recruit and retain a top parks and recreation professional to manage the Allegheny County Parks

- Implement a new maintenance management system designed to improve the upkeep of park and recreational facilities and grounds
- Develop and implement a risk management plan
- Prepare and implement a Preservation Plan to protect significant historic & cultural resources in the county parks
- Establish a process for coordinating with municipalities on county park issues of significant local concern

A long list of park-specific recommendations for facilities and programs have been completed, or are in process. As examples:

- A snow-tubing run at the ski area in Boyce Park is in the design phase
- The installation of a disc golf course is underway at Deer Lakes Park
- Land, or easements, are in the process of being acquired on the boundary of Harrison Hills Park to protect the view shed of the Allegheny River valley and to allow closer access to the river
- The horse stables at Hartwood Acres are in the process of being reestablished
- The shores are being stabilized and lakeside trails are being developed as part of the lake dredging project currently underway at North Park
- A demonstration garden has been developed at Round Hill Park
- Vendors have been selected and food and rafts are available to park visitors at Settlers Cabin
- A connection to the Montour Regional Trail is underway at South Park
- A therapeutic trail has been developed at White Oak Park
- Off-leash recreation areas (dog parks) have been added at Hartwood Acres, North Park, and South Park

The highest levels of achievement were in Harrison Hills County Park (84.3%) and Assigned Priority: 3 recommendations (83.0%). The lowest level of accomplishment was in Assigned Priority: 1 recommendations (44.5%). Below follows the list of achievements to the middle of 2006, based on the first four status groupings, for all parks and categories in order of highest percentage to lowest:

1.	Harrison Hills.....	84.3%
2.	Assigned Priority: 3 .....	83.0%
3.	Demonstration Projects.....	74.2%
4.	System-Wide.....	73.7%
5.	North Park.....	72.1%
6.	South Park.....	69.8%
7.	Hartwood Acres .....	63.6%
8.	Assigned Priority: 2 .....	63.4%
9.	Boyce Park .....	58.4%

- 10. Round Hill.....54.5%
- 11. White Oak .....54.2%
- 12. Deer Lakes .....52.4%
- 13. Assigned Priority: None.....50.0%
- 14. Settler’s Cabin.....50.0%
- 15. Assigned Priority: 1 .....44.5%

**Looking Forward:**

While an impressive portion of the recommendations made in the Allegheny County Parks Master Plan have been accomplished or are being addressed in some fashion, more than a third remain untouched. 34.5% of the 339 recommendations made in this Comprehensive Master Plan have yet to be undertaken and fall into two general areas: Administration and Facility/Program.

The remaining administrative recommendations continue to be explored by county management or the Parks Department and will be implemented as the policies, capacity, and/or funding become available to make them possible. The majority of the facility and program recommendations require additional funding to undertake; as such, these recommendations will be addressed as funding sources are identified.

As the county moves forward with its plans to develop a non-profit foundation for the Allegheny County park system, this 501(c)3 organization could be able to garner the necessary funds to address many of the remaining recommendations.

### System Wide Recommendations

Section No.	Recommendation	Assigned Priority	Status / Comments	Status Grouping
4.1	PARKS SYSTEM OPERATIONS	-	-	
4.1.1	Organization	-	-	
	Action: Implement a new organizational structure for the county parks system	1	The county parks system has been restructured.	1

	Action: Develop & implement a capital improvements budgeting process that addresses needs for repairs & upgrades to existing facilities & development of new facilities.	1	We are currently working on the process.	2
	Action: Implement a policy that specifies criteria for approving development of new facilities in the Allegheny County Parks.	1	There has been no progress in this project.	6
4.2.2	Accessibility	-	-	
	Action: Initiate a program to improve the accessibility of county park facilities to persons with disabilities.	1	The park's facilities have been improved to better accommodate the needs of the disabled.	3
4.3	PROGRAMS & EVENTS	-	-	
4.3.1	Recreational Programs	-	-	
	Action: Implement a policy that specifies criteria for the provision of recreational programs within the Allegheny County Parks.	1	This project is in discussions.	4
4.3.2	Educational Programs	-	-	
	Action: Implement expanded & new educational programs centered on the interpretation of natural & historic resources.	2	This project is in discussions.	4
4.3.3	Special Events	-	-	
	Action: Implement a policy that specifies criteria for approving special events in the Allegheny County Parks.	1	This project is in discussions.	4
4.4	NATURAL, CULTURAL, & HISTORIC RESOURCES	-	-	
4.4.1	Natural Resources	-	-	
	A. Conservation Areas	-	-	
	Action: Implement a conservation area program to protect areas of natural significance in the county parks.	1	The Allegheny County Parks will have a study conducted in order to complete this project.	4

<b>Section No.</b>	<b>Recommendation</b>	<b>Assigned Priority</b>	<b>Status / Comments</b>	<b>Status Grouping</b>
	B. Natural Resource Management	-	-	
	Action: Prepare & implement resource management plans for each park.	2	This project is in discussions.	4
	Action: Incorporate resource management guidelines into the county park maintenance management system.	2	This project is in discussions.	4
	C. Trails	-	-	
	Action: Establish & maintain defined trail systems throughout the Allegheny County Parks.		This project is complete.	1
	D. Hydrology	-	-	
	Action: Develop & implement watershed management plans for each of the county parks.	3	This project is in discussions.	4
4.4.2	Historic & Cultural Resources	-	-	
	Action: Prepare & implement a Preservation Plan to protect significant historic & cultural resources in the county parks.	1	A Preservation Plan has been organized and put into action for the county parks.	1
4.5	CIRCULATION	-	-	
4.5.1	Signage	-	-	
	Action: Develop standards for a system-wide wayfinding signage system.	1	The parks have been equipped with new maps and new signs.	1
	Action: Prepare & implement signage plans for each park.	2	This project is complete.	1
4.5.2	Pedestrian & Vehicular Circulation	-	-	
	Action: Implement a program to address priority pedestrian / vehicular conflicts & hazards within the county parks.	1	We are in the process of implementing a program.	2
	Action: Evaluate internal park roadways for the need to address traffic flow problems, sight distance, or alignment deficiencies.	3	The Allegheny County Parks continues to address this issue.	3
4.5.3	Public Transit	-	-	
	Action: Initiate discussions with the Port Authority on improving public transit service to the county parks.	3	The idea to improve public transportation to the parks was discussed with Port Authority.	2

<b>Section No.</b>	<b>Recommendation</b>	<b>Assigned Priority</b>	<b>Status / Comments</b>	<b>Status Grouping</b>
4.6	ECONOMIC DEVELOPMENT	-	-	
	Action: Use economic development potential as a criterion in evaluating proposals to develop new facilities & programs.	2	Allegheny County Parks now uses economic development potential as a factor in development proposals.	3
4.7	OTHER SYSTEM-WIDE RECOMMENDATIONS	-	-	
4.7.1	Open Space	-	-	
	Action: Work with public & private sector partners to connect county parks to a county-wide system of greenways & open space.	2	The Allegheny County Parks now works with public and private sector partners.	3
	Action: Work with local municipalities to preserve valuable open space lands adjacent to county parks.	3	The need to preserve adjacent land has been addressed.	3
4.7.2	Park Design	-	-	
	Action: Develop & implement unified design guidelines for park facilities.	2	There is no progress in this project.	6
	Action: Develop & implement master plans for each specific park in the system.	2	There have been no discussions concerning this matter.	6
4.7.3	Carrying Capacity	-	-	
	Action: Conduct analyses to determine the carrying capacity of each county park.	2	There is no progress in this project.	6
4.7.4	Intergovernmental Coordination	-	-	
	Action: Establish a process for coordinating with municipalities on county park issues of significant local concern.	2	This project is complete.	1
4.7.5	Park Boundaries	-	-	
	Action: Survey & field delineate the boundaries of the Allegheny County Parks.	1	This project is in discussions.	4
